

**Listing of the Claims:**

Below is a listing of all claims using a strikethrough and underlining to show changes.

1. (Currently Amended) A mounting method, comprising the steps of:

5        providing a wiring board provided with a first terminal;

         providing a connector provided with a second terminal;

         providing a camera module provided with a camera and a third terminal;

         soldering the first terminal and the second terminal to mount the connector on the wiring board; and

10        mounting the camera module on the connector to electrically connect the second terminal with the third terminal.

2. (original) The mounting method as set forth in claim 1, wherein the soldering step is performed in a non-manual manner.

15        3. (original) The mounting method as set forth in claim 2, wherein the soldering step is performed with a reflowing process.

20        4. (original) The mounting method as set forth in claim 1, wherein the wiring board is a printed wiring board.

5. (original) The mounting method as set forth in claim 1, wherein the wiring board is a flexible printed board.

25        6. (original) The mounting method as set forth in claim 1, wherein the camera module is detachably mounted on the connector.

7. (new claim) The mounting method as set forth in claim 1, wherein the camera is mounted so as to face away from the wiring board.
